**TWO STEP SOFTWARE CHOSEN TO PARTICIPATE IN PRESTIGIOUS
“GLOBAL SHARES LEADERSHIP FORUM”**

Two Step’s President and Founder, Gary Levine, will participate in the invitation-only event focused on the future of global share plans

Needham, MA - June 8, 2007 — Two Step Software, Inc., a leader in corporate governance and stock plan administration solutions, today announced that its President and Founder, Gary D. Levine, has been invited to participate in the First Annual Global Shares Leadership Forum. The Leadership Forum brings together leaders and visionaries for open discussions about the future of share plans in a global economy. The Leadership Forum, which is by invitation only, will be held in West Cork, Ireland from June 22-24, 2007.

“As global share plans continue to go through profound and increasingly rapid changes, we feel the need to bring the leaders of the profession together to share what they’re seeing in the market,” said Global Shares CEO, Carine Schneider. “With the number of regulatory changes in the past few years, particularly in the US and the EU markets and the growth in Asia, the need to bring together a select group of industry leaders and create a unique forum for those who are expected to set the trends and standards in the near future became quite apparent. We are thrilled to be hosting such an important event.”

Global Shares invited a select group of 40 influential leaders within the stock plan market from around the world to discuss the global challenges of business and employment practices created by new public company oversight requirements, revised stock option expensing regulations, stock option backdating scandals, and executive compensation reform. It also coincides with Global Shares establishing itself as one of the new outsourcing solutions for global equity administration with offices in the United States, Europe, and Asia.

“Mr. Levine was selected to participate in the forum because of the unique perspective he gained over the past decade while guiding Two Step Software to its market leading position and for his vast experience working with non-public companies struggling to manage stock plan and corporate governance information,” said Schneider. “This is an important and growing segment of the market and Two Step has been instrumental in identifying trends and addressing the changing business requirements.”

“I’m thrilled to have been selected to participate in the Leadership Forum and look forward to joining other industry authorities within the equity compensation business to share information about how the latest regulatory developments will affect share plans and corporate governance practices for organizations around

the world,” said Levine. “Global Shares is clearly poised to address a critical need for outsourced stock plan administration services for organizations located anywhere in the world. Carine Schneider has the requisite experience and connections to build a global brand and bring together a top notch group of global leaders who will help shape the future of standard practices for the share plan industry.”

Other invited participants include senior executives at Citigroup Inc., Fidelity Stock Plan Services, Deloitte, Intel Corporation, Merrill Lynch & Co., Inc., Morgan Stanley, Charles Schwab & Co., Inc., Baker and McKenzie, and KPMG International. The sponsors of the Leadership Forum include: Buck Consultants, iComp LLC, IFG Group PLC, Sungard, and Orrick Herrington and Sutcliff LLP. The special guest speaker is Corey Rosen, Executive Director of the National Center for Employee Ownership.

About Gary D. Levine

Gary D. Levine is the President and Founder of Two Step Software, Inc. and has worked with hundreds of privately-held companies and law firms over the past decade on matters related to stock plan administration and corporate governance. Mr. Levine started Two Step Software in 1995 following the sale of Pilot Software, Inc. where he was General Counsel. Before Pilot, Gary was a corporate and securities attorney at Hutchins & Wheeler in Boston, MA where he specialized in private equity and venture capital work. Mr. Levine received his JD from the Boston College Law School and his Masters from the MIT Sloan School of Management with a concentration in finance. A recognized author and speaker on topics related to stock plan administration, capitalization management and corporate governance, Mr. Levine is the author of the popular blog “Capitalization Matters” at: www.capitalizationmatters.com
